HUBFORUM 2018 : NO TRUST-NO BUSINESS was held on October 9 & 10, 2018 At Maison De La Mutualité (PARIS). It was a 2 Day Conferences, Workshops and Networking Sessions to grasp the Market's Best Practices and for Professionals to being able to meet the Right Partners for Business Purposes (3,000 Doers, 30 Business Cases, 35 Workshops, 48 Hours Networking).

Digital Transformation is the Integration of Digital Technology into All Areas of a Business, Fundamentally Changing how you operate and deliver Value to Customers. It's also a Cultural Change that requires Organizations to continually challenge the Status Quo, Experiment, and get Comfortable with Failure... Digital Transformation sounds like a Tech Buzzword, but it's an Important Process for keeping your Organisation up to speed with the Latest Changes in Technology.

It's a New Way to approach your Work and will most likely involve Stepping Out of your Comfort Zone and learning New Skills. Soon will appear New Job Titles such as Data Scientists or Systems Analysts as the Business starts to need Different Skill Sets to meet the Demands of Changing Technology. But it is more than just Technological Changes. It is a Completely Different Way of working that requires CEOs, Managers, IT Departments and even Entry-Level Employees to have Different Mindsets. It's more about changing the Way you adapt your Operation to New Technologies rather than simply adopting them.

Disruptive Events affecting Industries are coming Faster and becoming Less Predictable than ever before, especially for Industries where the Pace of Technological Evolution is confronting Traditional Business Models Head-On. Both Businesses and Government need to embrace the Latest Trends and the Innovation Opportunities they provide... Speed and Sophistication of Digitisation is on the Rise. Knowledge is Commoditising, but Data is increasing in Value. Consumers are more Digitally Savvy than Organisations. More and More Organisations are turning to the Crowd as a Powerful Human and Financial Resource. Social Platforms are driving the World. Your Competitors are Everywhere... Digital is the Ultimate Game Changer in Terms of how we think about One's Future Prosperity. The Challenge as Influencers, Business and Government Leaders, is to recognise the Innovation Opportunity and act now.
