IN FRANCE FIVE DOCTORS DIED FROM COVID-19 AND THE TOLL HIT 19,856 INFECTED

2,082 INTENSIVE CARE & 860 DEATHS

Paris, Washington DC, 24.03.2020, 02:29 Time

USPA NEWS - The coronavirus epidemic has affected 19,856 people in France and has caused 860 deaths and it will worsen. Also in the world, the virus continues to spread except in China and South Korea where cases are decreasing. Curve of the evolution of cases in France, number of deaths by regions, list of cities with a curfew ... Jean-Jacques Razafindranazy's first emergency doctor died on Saturday March 21, and is one of the « White « soldier who is on the front line to fight COVID-19 at Compiègne hospital This announcement caused a stir throughout France and a minimalist ceremony was held to pay him a disastrous tribute. According to a final report, published Sunday evening, the number of hospitalized patients reached 7,240, of which 1,746 are in intensive care (with about a third of these serious cases aged between 40 and 65 years). A doctor from Oise died in Lille as a result of Covid-19. Another died this Saturday in Dijon. He was a gynecologist in Mulhouse. A third died in Moselle, but the shortage of tests still raging, he has not been tested.[Updated on Friday March 23 at 10:30 pm]

In France, the COVID-19 coronavirus epidemic has affected more than 19,000 people and caused 860 deaths and continues to worsen. Indeed, a doctor, infected with COVID-19 moved France, by his death, in the Oise, where a ceremony of a tribute was dedicated to him today. The other doctors and staff of the hospital are very worried and multiply the calls to the government for a more strict confinement, because the human resources in hospitals which become more and more saturated.
The government is preparing this Monday to extend the containment of the population beyond the initial date of late March to counter the epidemic of coronavirus, which has killed at least 674 people in France, including three doctors
Also in the world, the virus continues to spread except in China and South Korea where cases are decreasing. Curve of evolution of cases in France, number of cases and deaths by regions ...
THERE HAVE BEEN 186 DEAD READS IN 24 HOURS IN FRANCE THAT IS THE WORST REPORT SINCE COVID-19 OUTBREAK----------
186 more deaths in 24 hours in France and 3,167 people infected in one day: the worst record since the start of the epidemic, announced Monday March 23. The High Council of Public Health advises not to use hydroxychloroquine in the absence of medical recommendations, and without strict medical supervision. The use of this molecule will be reserved for hospitalized patients with a severe form of the disease. Following this scientific opinion, the Minister of Health Olivier Veran decides on a decree in the coming hours to define its use. Italy is the country in Europe most affected by the coronavirus epidemic with 6,077 coronavirus-related deaths as of March 23 and more than 63,900 patients in the country. On Monday March 9, the President of the Council, Giuseppe Conte, announced the quarantine of the entire territory, ie the total confinement of the 15 million Italians until April 3. Transportation and essential public services continue to operate. It was otherwise decided to apply measures for many similar to France: [Updated on Friday March 23 at 9:30 pm]

The Covid-19 pandemic is still continuing worldwide: 169 countries are affected (out of 198 in total), more than 340,000 people are infected - 94,000 of whom are cured - and nearly 15,000 have died. Only in China and South Korea are cases decreasing. Europe is in the midst of an epidemic with new patients every day and 8,000 dead. Italy has almost 54,000 cases and nearly 5,500 deaths. In France, "the situation will continue to worsen in the coming days before the effects of strict confinement slow down the epidemic" indicated on Sunday March 22nd the Director General of Health, Jérôme Salomon.
FIVE DOCTORS DIED DUE TO CORONAVIRUS IN FRENCH HOSPITAL DEDICATED TO THEIR PATIENTS
Jean-Jacques Razafindranazy's first emergency doctor died on Saturday March 21, and is one of the « White « soldier who is on the front line to fight COVID-19 at Compiègne hospital This announcement caused a stir throughout France and a minimalist ceremony was held to pay him a disastrous tribute. This "White soldier" was unfortunately only the first follow-up of the four other announcements dead because of the coronavirus, since two days.
The regional health agency (ARS) of Grand Est and the mayor of the commune in which one of the victims worked announced the death of two doctors from Haut-Rhin and Haute-Saône following the Covid-19 . Two new deaths, Olivier-Jacques Schneller, 68, Jean-Denis Perret-Gentil, which bring to five the number of doctors who died under these conditions. One of the doctors was a general practitioner. He was 70 years old. Mahen Ramloll died on Sunday March 22 in Colmar hospital, according to the regional health

agency and a medical source. This doctor, domiciled in Colmar, Jean-Marie Boegle was making replacements in Fessenheim (Haut-Rhin) in particular, said a medical source.(source: Le Point)

THE VIRUS CIRCULATES INTENSIVELY IN EGHT (8) REGIONS WHICH MAKES THE SITUATION MORE DIFFICULT IN FRANCE

The virus circulates intensely in 8 regions including Alsace which is in a difficult situation just like Ile-de-France. In all, 16,018 cases are confirmed by screening test in France, of which 7,240 are hospitalized (1,746 serious cases are in intensive care), 2,200 are cured and 674 died. The impact of confinement in the country could be measurable in "15 days if everyone respects the rules" he said before indicating that "the peak of the epidemic would be in 8 days". of confinement will depend on the inflection of the epidemic curve ", that is to say the number of patients. The confinement is strict and each exit from the home requires a certificate of displacement. For business trips, this certificate is supplemented by an authorization signed by the employer. Compliance with this measure is monitored by 100,000 gendarmes and police officers present throughout France. "You are asked to respect confinement and when you go out to respect barrier measures and the distance of one meter in front of shops and in shops "insisted Jérome Salomon.
